In April 2018 the CIE 2018 Topical Conference on Smart Lighting took place in Taipei, Chinese Taipei. The CIE Topical Conference series is the successor to the CIE Lighting Quality and Energy Efficiency Conference series, which ran from 2010 to 2016.

This first conference focused on Smart Lighting, an area that is expected to bring significant energy savings and many other benefits. The conference provided scientific and technical inputs in order to progress development of technologies with confidence in regards to lighting quality, comfort, and safety.

The proceedings of this conference consist of 633 pages including 90 contributions. CIE x045:2018 is readily available from the [CIE Webshop](#) or from the National Committees of the CIE.

An overview of the papers included in the proceedings can be found in the [CIE 2018 Abstract Booklet](#).

The price of this publication is EUR 210,- (Members of the National Committees of the CIE receive a 66,7 % discount).
